

MAGNETIKA INC.

*Designers and Manufacturers of High Performance
Custom Magnetic Components for over 40 Years*

Company Products

Product Capabilities

- Frequency Range: DC to 1 MHz
- Power Ranges: 0VA to 300KVA
- Operating Voltages: Millivolts to 10KV
- Dielectric & Corona Test Voltages: Up to 60KV
- Magnet Wire Sizes: 00AWG to 50 AWG
- Custom & Standard Magnetics IAW Mil-PRF-27, Mil -T-16315 & Mil-STD-981
- Construction Types: Bobbin, Layer Wound, Edge Wound, Open Frame, Molded, Hermetic, Surface Mount, Planar, Thru Hole
- Weight: Grams to 2000 lbs

Qualification Capabilities

- Humidity

- Digitally Controlled Random & Sinusoidal Vibration

- Mechanical Shock

- Corona

- Thermal Shock

2041 West 139th Street, Gardena, CA 90249 USA
 Tel: 310-527-8100 Fax: 310-527-8101 Email: sales@magnetika.com
 www.magnetika.com ISO 9001:2000 and AS9100:2001

Facilities Capabilities

- Computerized Test Equipment
- Real-time X-ray Microscopy Inspection
- Class 100,000 Space Level Clean Room
- 40+ Years Design and Manufacturing of Magnetic Components
- On Site FAA-DMIR
- DSCC Certified Environmental Lab to MIL-STD-202
- Worlds Largest QPL Supplier
- Vacuum Pressure Impregnation & Encapsulation
- Five Facilities Offering over 200,000 Sq. Ft. of Manufacturing Space
- Fast Response Action Team (FRAT) - Dedicated Prototype Team

Locations

North Las Vegas, Nevada

Phillipsburg, New Jersey

Gardena, California

Lakewood, New Jersey

Tijuana, Mexico

Bethlehem, Pennsylvania (June 2004)

Markets Served

- Military
- Commercial
- Medical
- Aerospace
- Industrial
- Automotive

Customers/Programs

- Boeing: MD11, 777, Hi-Reliability/Space
- Northrop Grumman: BAT, Mag Bearing
- L-3 Communications: Delta Rocket
- Lockheed Martin: VLS, Longbow, Sea Wolf
- Raytheon: Patriot, Subfot, Shipfot
- Bombardier: Bart
